

Australian Animals

Suggestions on how to use the worksheet:

- Test how much students know before starting the class.
- Use as revision material after students have learnt about the animals.
- While a student gives a presentation on, or the teacher explains about animals using the photo panels, the rest of the class can use the worksheet to fill in the names of the animals.
- Play a guessing game using *Letters from Animals* (pg 40).

Explanation:

Facts and behaviour of Australian animals are explained in the book *Who Did That?*.
