

## Who Knows What?

**Teaching strategy:** Fill in the grid

**Task:**

Distribute one copy of the grid per person. Move around the room asking each other questions from the grid. When you find someone who knows the answer, record their name in that section of the grid.

Gather together and build up a list under the headings of:

What we know about Australia

What we would like to find out about Australia

**Grid Answers:**

The capital of Australia is Canberra.

Some native Australian animals are koalas, kangaroos, wombats, etc.

Australia is approximately 22 times bigger than Japan.

Japan imports natural gas, coal, iron ore, beef, copper ore and aluminium from Australia.

The Pacific Ocean is on the east coast and the Indian Ocean is on the west coast.

**Indigenous Australians are Aboriginal and Torres Straits Islander peoples.**

The currency used is the Australian Dollar.

Please see the folded Australian map in the Kit or the chapter for 国土/LAND at the TMAA website.

The Prime Minister of Australia is Prime Minister **Anthony Albanese (As of September 2023)**

Australia's winter season is the same time as Japan's summer.

The baby kangaroos live in their mothers' pouch. And they are called 'joey'.
